- Return Receipt for Merchandise
- Signature Confirmation™
- Signature Confirmation Restricted Delivery

Domestic Return Receipt

No more handwritten forms

Preparing certified mail the traditional way requires filling out PS Form 3800 by hand and attaching it to the front of your envelope. Then, you would need to peel off the tracking number and attach it to the corresponding green card which would get attached to the back of the envelope. This process is time-consuming, tedious, and error-prone. e-Certify replaces PS Form 3800 with a clean, printed banner page that is displayed in a window envelope or a simple thermal label that is affixed to the front.

Your new, streamlined proof of delivery

Just like PS Form 3800, manually filling out the green card, also referred to as PS Form 3811, is cumbersome and tedious. After delivery, the sender must wait for the green card to be returned, and the risk of it getting lost in the mail stream is a threat to security and could have legal consequences. The electronic return receipt solves all these issues and carries the same legal status as the green card. With e-Certify, you'll receive an email notification with the electronic return receipt attached as a PDF upon delivery of the mail piece. Your electronic return receipts are stored securely in e-Certify, available for you to view and download at any time, from anywhere.
